FOR IMMEDIATE RELEASE

Runge Independent School District Teachers Honored with Academic Excellence in Education Stipend Ahead of Christmas

RUNGE, TX - December 20, 2023

In a momentous celebration just before the holiday season, the dedicated educators of Runge Independent School District (Runge ISD) have been recognized for their outstanding commitment to excellence in education. This recognition comes in the form of the Academic Excellence in Education Stipend.

The recipients of this esteemed stipend demonstrated exceptional dedication through various criteria, including proactive parent contacts for failing students, conducting a minimum of five home visits, maintaining a record of no more than five days missed from school, setting and achieving professional goals for both themselves and their students, and consistently going above and beyond in their educational duties.

The Academic Excellence in Education Stipend serves as a testament to the unwavering commitment of Runge ISD teachers to provide a nurturing and academically enriching environment for their students. These educators not only fulfill their roles within the classroom but also actively engage with parents, set ambitious goals for personal and student growth, and extend their efforts to ensure that no student is left behind.

As the superintendent of Runge Independent School District, I commend each recipient for their exemplary contributions to our educational community. This recognition is well-deserved, and we take pride in having such dedicated professionals shaping the future of our students.
